Winter 2021

January 16

January 23

January 30

February 6

February 13

February 20

February 27

March 6

In order for the tutors to provide the most effective assistance, all students who sign up for mathematics tutoring must complete an online math assessment scheduled for Jan 16, 2021. The assessment, which is 45 minutes to 1 hour in length, determines students mastery in specific content areas pertaining to the math class.

More information will be provided a week before the assessment test.

To sign up for tutoring go to the following link
